

## Supplies and Tools needed to give birth to your Wild Woman Pin:

Round-nosed pliers

Flat-nosed pliers

Wire cutters

24-gauge (0.6mm) wire

ShrinkyDinks®

Paper punch

Beads:

Head - 1 - 14 mm round wooden bead

Arms - 2 - 8X15 wood beads

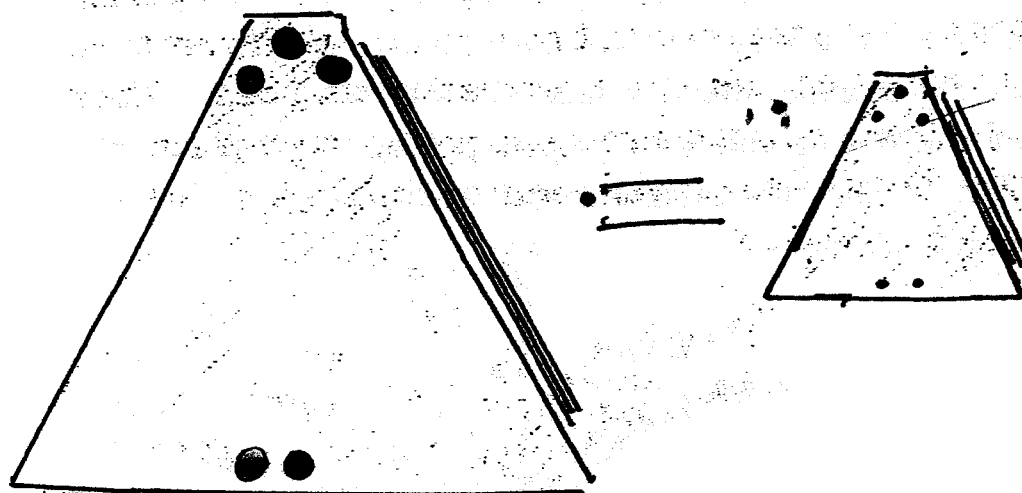

Legs - 2 - 6X9 wood beads

Knees/Shoulders/Shoes - 6 - 5 mm wood beads

Hair - Seed beads OR  $\frac{1}{4}$ " glass bugle beads OR 10/0 Rocaille beads

### BODY

Start with a 3" triangle and trace onto ShrinkyDinks®. Cut out, color, and punch holes as indicated in example. Shrink according to manufacturers directions.

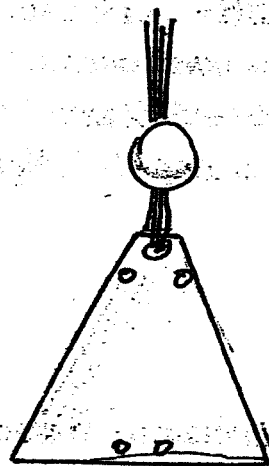

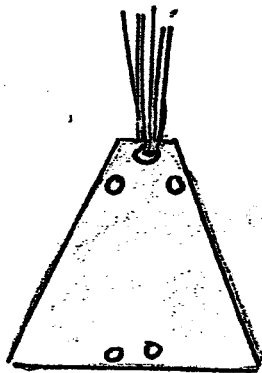

## Head and Hair

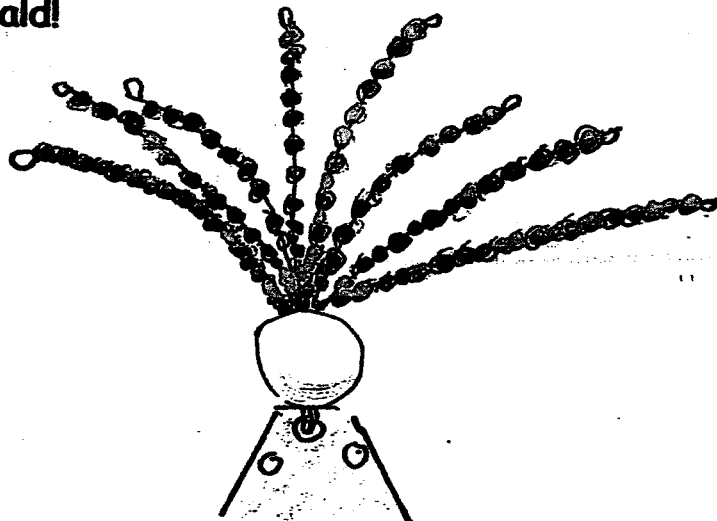

Cut 4 pieces of wire 5" long.

Thread through neck hole of ShrinkyDinks® dress. Bring wire edges together to fold in half. Thread head bead onto all wires.

Thread beads on each strand of wire making sure you slide beads down towards head bead as far as they can go. \*Leaving approximately 1/2in. of wire, make a loop by using the very tip of the round-nosed pliers and bending the wire to a right angle where it touched the last bead. Place the pliers about  $\frac{3}{4}$  of the way up the wire, gripping it tightly, and curl it into a circle, molding it around the circular shaft of the pliers.\* This will keep your pin from going bald!

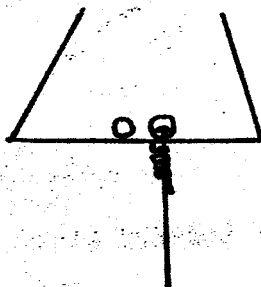

## Legs

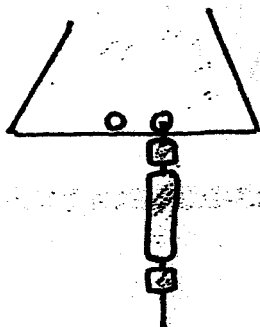

Cut two pieces of wire 4" long

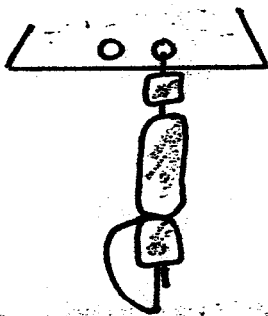

Thread through the leg hole on body. Bend about 1/4in and twist to secure. *NOTE: To not twist too tight or hole in body may crack.*

Thread on the knee bead, followed by the leg bead and then the shoe bead.

Bring the end of the wire back through the top hold of the shoe bead. Pull tight with pliers and cut leaving approximately 1/2in.

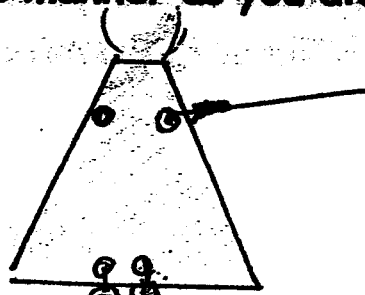

Make loop following \*directions above. Repeat for other leg.

## Arms

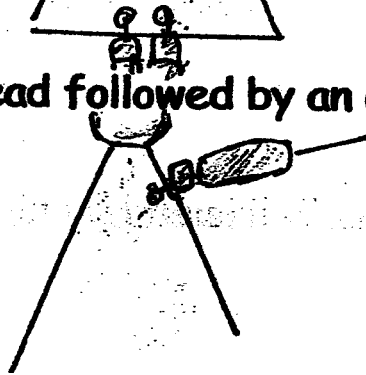

Cut 2 pieces of wire 3" long.

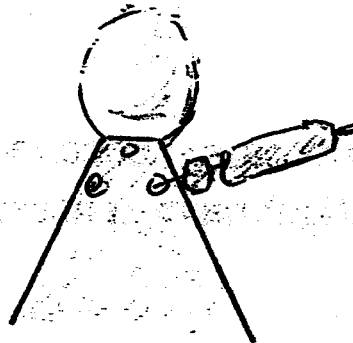

Secure to body the same manner as you did the legs.

Thread one shoulder bead followed by an arm bead.

Cut wire leaving approximately 1/2in and loop close following the \*directions from above.

Repeat for other arm.

Glue Tie Tack pin onto back of head and wear with PRIDE!
