Notes: Mention that you are booking for a Girl Scout troop to see if you can get special arrangements or fees.

My mother recommends this option because it is less costly and more private. The island also offers attractions of its own like the Tybee Island Lighthouse and a beach. The home we stayed in very comfortably housed everyone and also included bikes and a beach access.

The girls in my troop spent a day on the beach and had lots of fun. We found that spring break was a nice time to go. We do highly suggest wearing sunscreen because the sun is a little stronger and some of us found that out firsthand!
