

Activities

There are many activities listed in the packet. The ones listed below are the ones that my troop did on our five day trip. One of the days was completely devoted the Birthplace and later a ghost tour, but the others we did whatever we wanted. One day was shopping and sight seeing and another was a beach day and the lighthouse. Dinners were even a fun experience. We really enjoyed all of the activities we did and would highly recommend them.

Tybee Island Lighthouse

If you are staying on Tybee Island, visit the lighthouse. My troop got a great picture of us all at the top with a great view in the background. The fee is extremely reasonable and this includes climbing the lighthouse and a tour of the museum. Call 912-786-5801 or just show up. Girl Scout discount rates are available.

Ghost Talk Ghost Walk

This was a walking tour that takes place at dusk. We were guided around by a woman dressed in period clothing and a lantern. We walked around to different cites in Savannah where hauntings are reported to take place. Along the way, the woman gave us background

information and personal experiences of people who experienced ghostly activity. Everyone had a good time and we even had a strange experience of our own.

The Lady and Sons

For dinner one night, we went to the famous restaurant The Lady and Sons. It is owned by the Food Network star Paula Deen. The atmosphere is very friendly and you are invited in by the sound of a dinner bell. The restaurant has a buffet filled with true southern cooking. You can help yourself to dinner and after you are finished, a variety of tempting desserts are offered to finish off this unique eating experience. You must call ahead for reservations at (912)-233-2600.
