

Make a Sound Map

Earth Day 2021

Supplies

- Paper
- Something to draw with
- Something to lean on

Steps

- Choose a sit spot! Sit quietly and listen.
- Place an x in the center of a piece of paper. The x represents where you are sitting.
- Close your eyes and listen quietly for five minutes. Draw a symbol to represent each sound that you hear. The location of the symbol should indicate the direction and distance of the sound from your listening spot.

Reflect

- What sounds were familiar to you?
- Did you hear any new sounds?
- What made those sounds?
- What was your favorite sound?
